

## 10 Top Tips for E-safety

- 1) Don't post any personal information online - like your address, email address or mobile number.
- 2) Think carefully before posting pictures or videos of yourself. Once you've put a picture of yourself online, most people can see it and may be able to download it. It's not just yours anymore.
- 3) Keep your privacy settings as high as possible.
- 4) Never give out your password.
- 5) Don't befriend people you don't know.
- 6) Don't meet up with people you've met online. Speak to your parent or carer about people suggesting you do.
- 7) Remember that not everyone is who they say they are.
- 8) Think carefully about what you say before posting something online.
- 9) Respect other people's views. Even if you don't agree with someone else's views, it doesn't mean you need to be rude.
- 10) If you see something online that makes you feel uncomfortable, unsafe, or worried, leave the website, turn off your computer and tell a trusted adult **IMMEDIATELY**.
